FIELD AND BACKGROUND OF THE INVENTION

Page 3, line 3, insert the following heading:

SUMMARY OF THE INVENTION

Page 3, lines 6-8, delete the paragraph.

Page 11, before line 29, insert the following heading:

BRIEF DESCRIPTION OF THE DRAWINGS

Page 12, line 24, insert the following heading:

DETAILED DESCRIPTION OF THE INVENTION

Amend the Abstract of the Disclosure as follows:

~~Abstract~~ ABSTRACT OF THE DISCLOSURE

The invention relates to an apparatus for examination of images having an image storage device (40) which is designed to store image data for images to be evaluated, a display device (22) which is designed to display the image data, an input device (23) for a subject, ~~which~~ that is designed to interrogate visualization data, a control device (21) which connects the abovementioned devices to one another, a data matching device (30) for matching image data and visualization data, ~~as well as~~ and an evaluation device (41) for calculation of a visualization profile, with the visualization data comprising position data which is transmitted from the input device (23). The ~~invention provides for the~~ input device (23) ~~to~~ may have a pointing appliance (24), ~~with the pointing appliance (24) being~~ designed such that it is moved manually by the subject for pointing, and the input device (23) interacting interactively with the marking (20) such that the position of the pointing appliance (24) is displayed by means of the marking (20) on the display device (22). This allows simple and fast recording of the areas which are particularly observed by subjects. The invention also relates to a corresponding method for examination of images.
